## MV-223-46

Safety shoes with insulating sole, leather and high type

Series: MV-223-..

### Application:

- Safety shoes, high and leather type, providing electrical hazard resistance up to 18 kV according to ASTM F2413:2018.
- To be used inside or in a dry environment.
- Safety shoes with insulating sole specifically designed for the electricians, industry, building, oily and smooth soils.

### Fonctionnalité

|                          |  |
|--------------------------|--|
| Weight                   | 1,39   |
| Material                 | Cuir / Textile   |
| Size                     | 46   |
| <b>Tension</b>           |  |
| Voltage Level            | Classe 0   |
| Rated Insulation Voltage | Testées: EN 50321 - 5 kV /<br>ASTM F2412 - 14 kV / ASTM<br>F2413 - 18 kV |
| Operating Voltage AC     | 1 000 V  |
| Operating Voltage DC     | 1 500 V  |

### Features:

- Each insulating sole tested at 5 KV.
- Shoes with leather and breathable liner microphone.
- Anti-penetration textile sole.
- Protection cap 240 J (20% above the standard).
- Slip resistance: SRC. Torsion resistant sole.
