MT-8614

Earthing and short-circuiting device for 400 A sockets

Series: MT-8614

Application :

Earthing and short-circuiting device equipped with resting studs for installation on 400 A separable connectors for HV transformers.

Fonctionnalité

| | |
|----------------------|------|
| Weight | 13.5 |
| Short Circuit Rating | 12.5 |

Features / Composition :

- Icc 12.5 kA / 1s.
- 3 elastomer insulating studs equipped with a locking device.
- 3 padlocks **AL-230555**.
- 1 trifurcation set: 3 short-circuit cables section 70 mm², length 0.40 m and 1 earthing cable section 35 mm², length 2 m.
- 1 earth clamp **MT-8401**.
- 1 storage and transport tool
