

GMDA-40

Galvanized steel earthing grids

Series: GMDA-...

Network Application: LV

////////////////////////////////////

Application:

- Ensures the proper flow of lightning currents or 50 Hz fault currents to earth.
- Prevents the formation of harmful cavities on the contact surface.

Features:

- Made of galvanized steel wires Ø 3 mm.
- A longitudinal link made of galvanized steel wire Ø 1 mm holds the ellipses in place. It ensures the rigidity of the grids.
- 42 mm side strip with holes and notches for connection of the earth cable by bolt or connector **CP-95**.
- Mesh size 40 x 110 mm.
