

TFTI-16/17

Connector heads for earthing rod.

Series: TFT.-16/17..

Network Application: LV

Application:

- Head/rod connection obtained by conical press-fitting with force.
- Head/cable connection made by striking a stainless steel peg located in the upper part of the head. This strike guarantees the connection head/posts and head/cable.
- For earthing rods: Ø 17.3 mm copper-steel and Ø 16 mm stainless-steel.
- Model TFTI-16/17: the head/rod connection fits inside the earthing rod.

Description

Use	Right-angled running through copper cable 25-29 mm ²
Connector	Câblette cuivre passante perpendiculairement 25 ou 29 mm ²
Fitting	Piquet cuivre acier D. 17,3 mm et acier inox D. 16 mm
Mounting	Piquet cuivre acier D. 17,3 mm et acier inox D. 16 mm
Use	Right-angled running through copper cable 25-29 mm ²
Diamètre	
Diameter	25
Fonctionnalité	
Weight	0,08
Material	Bronze
