

MT-508/46

"Nevers" type Earthing equipment with 4 telescopic sections

Series: MT-508-46

Application :

- Allows earthing and short-circuiting operation from the ground.
- For low and medium voltages on distribution overhead networks.
- Icc : 8 kA/1 s.

Features :

- 4 telescopic sections.
- Capacity: cables diameter 3 to 22 mm.
- Handling from the ground up to 10,5 m.
- Automatic tightening of the clamps on cables by gravity.
- Insulating sticks diameter 36 mm.
- Hexagonal earthing rod.

Composition :

- 3 metallic and telescopic sticks made of 4 sections [MT51246](#).
- 1 insulating stick made of 2 sections [MT531](#).
- 1 insulating stick [CM4165B](#).
- 1 stick leveller [MT546](#).
- 1 drum with cable 35 mm² x 10 m [MT54335](#).
- 1 earth rod [MT650](#).
- 1 carrying bag [M87208](#).
