

CL-5-36

Bipolar Phase Matching Controller

Series: CL-5-..

////////////////////////////////////

Application :

- Bipolar phase comparator with galvanometer.
- Integrated self-test.

Features :

- 2 elements connected by a flexible lanyard with high insulation of 1.30 m
- 2 removable sleeves
- Metal case : 0.40 x 0.25 x 0.85 cm
- Appreciation of the value of the tension given by the deflection of the needle d a galvanometer. High insulating materials characteristics.

Use

Indoor & Outdoor

Dimensions

Height 850
Width 400
Depth 250

Fonctionnalité

Weight 7.5
Length Cord 130
Degree Protection Impact IK04
Frequency 50 / 60 Hz

Tension

Operating Voltage AC 5 - 36 kV
