

**BRE TYCAM 2100 OUTDOOR**

www.deltadore.com

**⚠ ATTENTION :** Pour assurer l'étanchéité du montage, le boîtier doit être fixé sur un mur vertical et vous devez calfeutrer les emplacements indiqués au paragraphe 6.

**WARNING:** To ensure the installation remains watertight, the case must be fixed to a vertical wall and you must seal the locations indicated in paragraph 6.

**VORSICHT:** Um eine wasserdichte Abdichtung zu gewährleisten, muss das Gehäuse an einer vertikalen Wand montiert werden, und Sie müssen die in Absatz 6 angegebenen Stellen abdichten.

**ATTENZIONE:** Per assicurare la tenuta stagna del montaggio, la scatola di collegamento deve essere fissata su muro verticale e necessariamente sigillata con silicone nei punti indicati nel paragrafo 6.

**ATENCIÓN:** para garantizar la estanqueidad del conjunto, la caja debe estar fijada en una pared vertical y debe aplicar silicona en las ubicaciones indicadas en el párrafo 6.

**UWAGA:** aby zapewnić szczelność montażu, urządzenie należy umieścić na pionowej ścianie i zabezpieczyć je zgodnie ze wskazówkami opisanymi w paragrafie 6.

**LET OP!** Om te garanderen dat de installatie waterdicht is, moet de behuizing op een verticale wand bevestigd worden en u moet ook de locaties, dat in paragraaf 6 aangegeven zijn, afdichten.

**HUOMAUTUS:** Asennuksen vesitiivyyden varmistamiseksi, kotelo tulee asentaa pystypinnalle ja tiivistää massalla kuvassa 6. osoitetuista kohdista.  
For å sikre installasjonen mot vanninntrenging er det viktig at koblingsboksen blir montert på en vertikal vegg og at eventuelle åpninger hvor vann/fuktighet kan trengre inn blir tettet med egnet tettemasse.
