**Installation with different coatings :**

Example with carpet or vinyl : (3mm max)

Cut the gauge to the dimensions below.

Stainless steel finishing plate ref 0 880 72 :

**4 TECHNICAL CHARACTERISTICS (continued)**

7		Classification EN 60670-23	
7.1	The nature of their material	7.1.3. Composite	
7.2	The method of installation <sup>a</sup>	7.2.1 Flush, semi-flush or embedded	7.2.1.3 Hollow walls, hollow ceiling, hollow floors or furniture
		7.2.3 Placement	7.2.3.1 Suitable for installation into concrete during the casting process (see 7.6)
		7.2.101 According to floor treatment	7.2.101.1 Floor boxes or enclosures intended to be installed in floor subjected to dry treatment
7.3	The type(s) of inlets (outlets) <sup>b</sup>	7.3.7 Without inlets. Inlet openings will be made during installation.	
7.4	The clamping means	7.4.2 With cable anchorage	
7.5	The minimum and maximum temperatures during installation	7.5.1 -5 °C to +60 °C	
7.6	The maximum temperature during the casting process	7.6.1 +60 °C	
7.7	Boxes and enclosures for hollow walls and the like according to 7.2.1.3 are classified as	7.7.3 According to the degree of protection of the part mounted in the hollow wall	7.7.3.1 IP20

Insulation resistance and electric strength - IEC 60670-1 and 23:  
The rated insulation voltage declared: 500 V

**Cleaning :**

The visible parts of floor box should be cleaned only with a dry cloth :

**5 MATERIAL CHARACTERISTICS**

Floorboxes are in ABS, handle is plastic in PA 6.6 charge and cable exit in TPEE (élastomer)

Metal backboxes are in :

- Galvanised steel (Z275)
- ABS (for angles)
