- · Self-extinguishing

Cat. Nos.	Sides	Bottom
892.56	2 x 16 / 2 x 20	2 x 16 / 2 x 20

## 3. USE

For the centre point, use a threaded rod with nut M6, length 160 mm, for attaching to the frame Cat. No. 892 86  $\,$ 

## 4. MOUNTING

· Mounting luminaires

In conformity with standard NF C 15-100, it is essential to attach the centre point box to the structure

The independent duct of Batik centre point boxes facilitates their installation

The independent duct is screwed onto the threaded rod sealed in the

The box is then simply clipped

The tubes no longer need to be rotated The box no longer directly supports the weight of the light fitting

# 4. MOUNTING (continued)

The two-part cover provides a perfect finish

## 5. DIMENSIONS (mm)
